

## Covered Entities Guide for Public Users

### Viewing a Contract Pharmacy Record

This guide describes how to view and customize the way contract pharmacy search results data are arranged to assist you in finding a pharmacy record in the 340B database. You will also learn how to review and understand the pharmacy's record details.

When the list of pharmacies that matches your search criteria displays, you have numerous options for arranging the way the data is presented.

**Search Results:**

- 1) **The number of rows returned:** If the number of entries returned is more or less than you desire, modify your search criteria accordingly. If you would like to see and/or update the search criteria you entered to obtain the search results displayed, click the [Show Search Criteria](#) button. The system will display the search criteria where you can refine your search.
- 2) **Hide/Show Search Criteria:** When you click the [Hide Search Criteria](#) button, only the search results display.
- 3) **Rows/Page:** This drop-down list enables you to set the number of search results that will display on a page, from 10-200. The default is 200. If you select another number, click the [Set](#) button to make it the new selection.

- 4) **Select All:** Check the **Select All** box. A check appears in the box next to each row. You can use this feature to decide which pharmacies you want to export to an Excel spreadsheet [[Exporting Pharmacy Data to a Spreadsheet](#)].
- 5) Click a column heading to sort it in ascending or descending order. The default is descending order so if you click a heading it will rearrange search results in ascending order.

The next page depends on which link you click on the **Search Results** data table. Each row has three links that take you to a different page:
